Savings & Term Deposit Profit Rates – Customer Summary

1. Expected Profit Rates

- The expected profit rate (EPR) is calculated daily and shown as a gross annual rate (p.a.), based on your account balance.
- EPRs may change at the end of each month, when profits are calculated and your share is determined.
- For term deposits, profit is calculated daily and paid quarterly. You can opt to receive your profit on a quarterly basis or reinvest your profit in your Fixed Term Deposit.
- New accounts and rollovers receive the latest available profit rates.
- All savings accounts require a minimum deposit of £5,000. If the balance falls below this threshold, an expected profit rate of 0.05% will apply. The full expected profit rate will resume once the minimum balance requirement is met.

2. For Existing Customers

- If you already have an account, your expected profit rate remains unchanged from when you opened it.

3. Profit Rates for October (Reinvested & Paid at Maturity): These rates apply to existing customers only.
